

Why Luxform

- Nearly 50 years of market knowledge and product expertise.
- Full-service supplier of sustainable outdoor lighting.
- Compelling product ranges with attractive pricing.
- Option for customer-specific collections.
- Designed for private consumers and professionals alike.
- Functional and decorative items.
- Unique sales support concepts.
- Pan-European supplier, active in more than 25 countries.

Luxform, sustainable lighting for all

Luxform's lighting products offer sustainability at your fingertips. Currently, more than 90% of our range already consists of solar lighting. These lights are charged daily by solar energy to brightly illuminate the surroundings at night.

Each solar light works independently of other lights and does not require power cables or transformers. This makes solar lighting ideal for hard-to-reach places or landscaped gardens. The materials used in our products consist primarily of recyclable or recycled plastics. Our lighting range mainly consists of solar-powered lighting. There are three variations available.

100% solar lighting

A portion of our range consists of products that generate their energy from a solar panel. The charging hours will be shorter in the winter months, so the light will have fewer burning hours than in summer.

100% solar - All Year Round

Our All Year Round solar lights feature chip technology that adjusts to the capacity in the battery, which is charged during the day. With a fully charged battery, the light gives the maximum quantity of lumens. In poor weather conditions and when the battery is not fully charged, the light itself will adjust the brightness.

The light automatically adjusts its brightness to provide enough energy to burn for 6 hours. Year-round, 6 hours of light every day after sunset. An All Year Round solar light therefore ensures safety and security in the garden 365 days a year.

100% solar + Intelligent Hybrid technology

Our innovative intelligent hybrid solar lights are particularly outstanding. These lights all feature intelligent energy management. Using hybrid technology, these lights offer the best of both worlds.

The energy efficiency of solar and the security of year-round lighting. The light is self-taught and intelligent, distributing the charged energy over 8 burning hours. During the winter months, you can set the light to 50% light/brightness, so it will have enough energy to illuminate your garden even during the winter months.

If your light is in a shady spot or if the weather is poor for several days, you can boost the light by recharging it with the included USB cable. This also ensures consistent light output.

Trusted quality with a new look

One of the components of our new presentation is the division into three price-quality levels. We offer this classification for our functional lighting only.

With functional lighting, it is essential that consumers know what they are buying. After all, lighting is often purchased to increase security, and the market is unfortunately saturated with unreliable solar products.

Luxform wants to provide consumers with clear information both in the various shelf arrangements or display options and on the box packaging. The distinction between the various types is shown by convenient and notable icons on both the shelves, the displays, as well as the packaging. This will help the consumer to quickly make the right choice.

We have categorized our functional lighting as follows:

Standard Collection

Trusted Luxform quality since 1978 at an attractive price. Practical products with excellent brightness, proven materials and sales success!

Plus Collection

Products with additional application options or additional properties. This includes anything that offers a proven standard product with a higher light output or intelligent chip for longer light output.

Premium Collection

Top of the line. Often feature hybrid technology with many products equipped with special and/or multifunctional applications.

IN-STORE

4-metre shelf

Increasing returns per (shelf) metre is the result of a balanced product range, clear communication and a simplified selection process for consumers.

Luxform, one of the first concept suppliers of store presentation modules for outdoor lighting, is offering a completely revamped store presentation as of this season. This new design serves as a clear beacon on the store floor and supports consumers in making the right choice of solar outdoor lighting. On a compact yet captivating 4-metre space, 4 product concepts are displayed. With a unified presentation and the use of a calm yet clear colour scheme, consumers will be swiftly drawn to the shelf.

A few metres in front of the shelf, clear signage will help consumers recognize the various product groups: pathway lighting, spotlights, wall lights, security lights and party lighting. Directly in front of the shelf, consumers quickly recognize the different price-quality levels Standard, Plus and Premium. All designed for an even more compelling shop presentation and thus optimal resale of Luxform items.

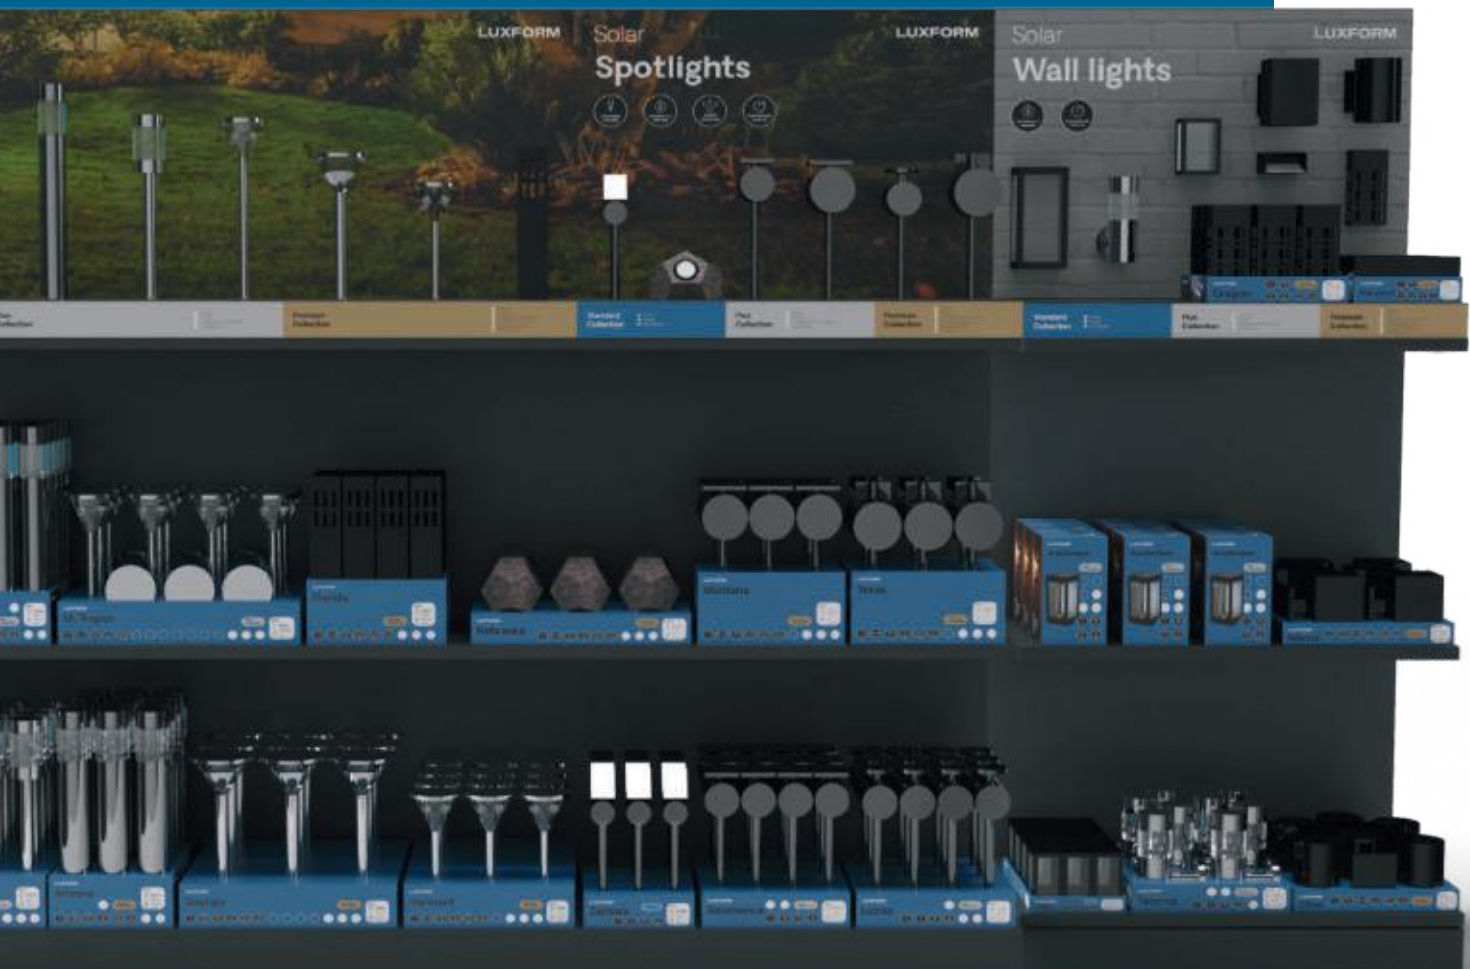

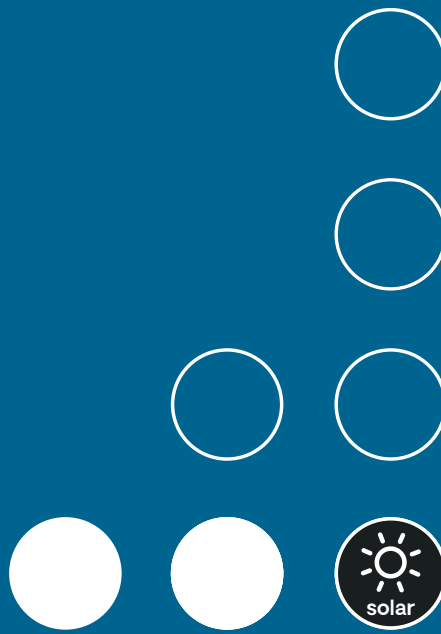

The benefits of our new presentation at a glance:

- Clear shelf or display presentation; aligned to your store format and customer.
- Uniform and clear brand look, divided into clear use cases. All products are displayed against a realistic photo background.
- From several metres away, the customer can immediately see which shelf is relevant to him/her, which will simplify the decision making.
- Directly in front of the shelf, consumers are further assisted in their choice by clear explanations of the applications and quality levels of the Standard, Plus and Premium lights.

A complete range of outdoor lighting for retailers.

Everything is clearly classified according to Standard, Plus and Premium.

Standard Collection

Plus Collection

Premium Collection

IN-STORE

Displays

In addition to shelf presentation, often called first placement, our products are of course also offered for either a second store placement, or as a promotional display to boost sales and create additional opportunities during the season. You can also use the displays to simply try out a new category in another department.

Display Experience Bar

The Luxform Experience Bar is the ideal store presentation when shelves are not available. Designed for maximum turnover with clear consumer support. The experience bar combines all known retail lessons to activate, inform and convert consumers into buying customers. Ideally, they should be placed in the aisle to generate maximum conversion. The different experience bars combined provide a complete presentation in the main product groups; pathway lighting, spotlights and wall lights.

Permanent - display pallets

Our permanent displays are now in thousands of stores across Europe. The convenience of being able to offer a large selection unified in a limited space is of great value to many retailers. With our new signing and branding capabilities, display pallets are now even better suited to your retail formula.

Promotion pallet

Although also suitable as a permanent fixture, these displays are often also used temporarily to support a specific promotional campaign. These displays have also been completely restyled in our new brand look.

Open displays - mix & match

These open displays combine readily with the standard sales units of our products. The majority of Luxform overpacks (ex. 1909.000.00) feature sets of 8, 12 or 24 items. These overpacks can be easily placed and stacked in the open display. This allows you to order the assortment that best suits your customer group and place it in the store with exceptional ease.

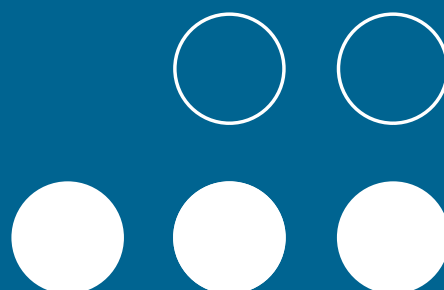

Wire display - mix & match for stake lights

Specially designed for our decorative stake lights. The display includes 24 plug-in lights. When you purchase a set of 24 stake lights, you will receive the display for free.

Wire display - batteries

Luxform batteries are designed specifically for use in our solar lights. This ensures optimum operating life and - for the rechargeable variants - rapid charging. The ordering units of the batteries can be easily inserted into the display through their euro slot.

Functional

Our functional solar lighting is an important part of any outdoor space. Whether it is a garden, a driveway, a path or a patio. Lighting not only provides additional safety and convenience, but will also enhance the look of your outdoor space.

The lights are charged by sunlight during the day and emit a bright, yet warm light at night. Some of our products include motion sensors, so the light will only be activated in the dark when someone walks by. The majority of our solar lights turn on automatically after sunset. This not only provides additional security, but also saves energy.

Path lights

MONTELMAR

Dimensions: 62 x 388 mm
Brightness: 5 Lumen
LED: 1 x filament, warm white
Material: PP
Colour: black
Incl. battery: 1 x AA Ni-MH 1,2V

RENNES

Dimensions: 62 x 435 mm
Brightness: 5 Lumen
LED: 1 x softtone 360°, warm white
Material: STS & GL
Colour: black
Incl. battery: 1 x AA Ni-MH 1,2V

Pathway lighting not only provides functional safety for your garden, driveway or walkway, but also adds a decorative aspect to your outdoor space. With pathway lighting, you can easily find your way in the dark. Also, illuminating these areas gives a sense of safety and reduces any risks of accidents in the dark.

TORINO

Dimensions: 75 x 427 mm
 Brightness: 6 Lumen
 LED: 1 x softtone, warm white
 Material: STS
 Colour: grey
 Incl. battery: 1 x AA Ni-MH 1,2V

ST TROPEZ

Dimensions: 120 x 420 mm
 Brightness: 5 Lumen
 LED: 1 x softtone filament, warm white
 Material: PP
 Colour: black
 Incl. battery: 1 x AA Ni-MH 1,2V

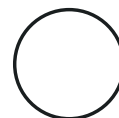

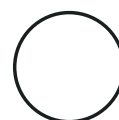

KODIAK

Dimensions: 115 x 400 mm
 Brightness: 5 Lumen
 LED: 1 x softtone filament, warm white
 Material: STS & GL
 Colour: black
 Incl. battery: 1 x AA Ni-MH 1,2V

TACOMA POST

Dimensions: 62 x 504 mm
 Brightness: 5 Lumen
 LED: 1 x softtone 360°, warm white
 Material: STS & GL
 Colour: grey
 Incl. battery: 1 x AA Ni-MH 1,2V

Pathway lighting enhances the atmosphere and is very effective in accentuating specific lines in the garden or along the path. Luxform's wide range of solar path lights consists of different types and styles with a timeless character.

Almost all path lighting products have a convenient included ground pin, which allows you to easily insert the light into the ground within seconds. No further mounting hardware is required.

FLORIDA

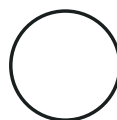

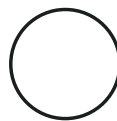

Dimensions: 70 x 354 mm
Brightness: S20/W10 Lumen
LED: 1 x filament, warm white
Material: AL
Colour: black
Incl. battery: 1 x 14500 Li-Ion 3,7V

GEORGIA

Dimensions: 150 x 338 mm
Brightness: S25/W12,5 Lumen
LED: 1 x softtone SMD, warm white
Material: STS & GL
Colour: grey
Incl. battery: 1 x 14500 Li-Ion 3,7V

VERMONT

Dimensions: 115 x 273 mm
 Brightness: S10/W5 Lumen
 LED: 1 x softtone SMD, warm white
 Material: STS & GL
 Colour: grey
 Incl. battery: 1 x 18500 Li-Ion 3,7V

ARIZONA

Dimensions: 76 x 422 mm
 Brightness: 5/50-100 Lumen
 LED: 5 x softtone SMD, warm white
 Material: STS & GL
 Colour: grey
 Incl. battery: 1 x 14500 Li-Ion 3,7V

Spotlights

Spotlights offer a practical and very attractive way to highlight and accentuate specific objects such as a shrub, tree, plant or ornament in the dark.

ZAMORA

Dimensions: 80 x 55 x 350 mm
Brightness: 10 Lumen
LED: 1 x softtone, warm white
Material: PP
Colour: black
Incl. battery: 1 x AAA Ni-Mh 1,2V

LAZISE

Dimensions: 80 x 110 x 355 mm
Brightness: 5 Lumen
LED: 3 x softtone SMD, warm white
Material: PP
Colour: black
Incl. battery: 1 x AA Ni-Mh 1,2V

SALAMANCA

Dimensions: 78 x 127 x 350 mm
Brightness: 20 Lumen
LED: 1 x softtone SMD, warm white
Material: PP
Colour: black
Incl. battery: 1 x AA Ni-Mh 1,2V

NEBRASKA

Dimensions: 170x 140 x 150 mm
Brightness: S30/W15 Lumen
LED: 1 x softtone SMD, warm white
Material: PR
Colour: brown
Incl. battery: 1 x 18500 Li-Ion 3,7V

TEXAS

Dimensions: 203 x 110 x 362 mm
Brightness: S100/W50 Lumen
LED: 1 x softtone, warm white
Material: AL
Colour: black
Incl. battery: 1 x 18650 Li-Ion 3,7V

MONTANA

Dimensions: 140 x 145 x 290 mm
Brightness: S50/W25 Lumen
LED: 1 x softtone SMD, warm white
Material: PP
Colour: black
Incl. battery: 1 x 18500 Li-Ion 3,7V

The head of the spotlight is easily adjustable to set the light angle. Spotlights also work well in shaded areas. The solar panel does, of course, require sufficient exposure to sunlight.

Wall lights

Wall lights offer the perfect solution to make your outdoor space safer while enhancing the look of your home or garden. Wall lights are also a welcoming feature at the front door: visitors can easily see your house number and you are able to see who is at the door before opening it.

Wall lights, however, need not be merely functional. With wall lights, you can not only provide the necessary functional lighting for your patio, balcony or porch, you can also use them to add style and elegance to your outdoor environment. Luxform's wall lights provide the lighting you need to create an atmosphere that suits your taste and needs.

VIGO WALL

Dimensions: 94 x 67 x 134 mm
Brightness: 8 Lumen
LED: 1 x softtone filament, warm white
Material: PP
Colour: black
Incl. battery: 1 x AA Ni-Mh 1,2V

TACOMA WALL

Dimensions: 90 x 150 x 200 mm
Brightness: 5 Lumen
LED: 1 x softtone 360°, warm white
Material: STS & GL
Colour: grey
Incl. battery: 1 x AA Ni-Mh 1,2V

AMSTERDAM WALL

Dimensions: 120 x 120 x 243 mm
Brightness: 30 Lumen
LED: 1 x 3W filament bulb
Material: PP
Colour: black
Incl. battery: 1 x 14500 Li-Ion 3,2V

OREGON

Dimensions: 85 x 55 x 180 mm
Brightness: 10/25-50 Lumen
LED: 1 x filament
Material: STS & GL
Colour: black
Incl. battery: 1 x 14500 Li-Ion 3,7V

MARYLAND

Dimensions: 100 x 50 x 80 mm
 Brightness: S15/W7,5 Lumen
 LED: 2 x softtone SMD
 Material: PP
 Colour: black
 Incl. battery: 1 x 14500 Li-Ion 3,7V

**MAINE**

Dimensions: 110 x 167 x 155 mm
 Brightness: S50/W25 Lumen
 LED: 5 x softtone
 Material: STS & GL
 Colour: black
 Incl. battery: 1 x 18650 Li-Ion 3,7V

**OHIO**

Dimensions: 107 x 164 x 150 mm
 Brightness: S50/W25 Lumen
 LED: 5 x softtone
 Material: STS & GL
 Colour: black
 Incl. battery: 1 x 18650 Li-Ion 3,7V

Security

Securing your home and safety around your home are the best reasons to purchase garden lighting. By placing security lighting in the right places, you shed light on uninvited guests. Security lighting can also be a useful tool for when you return home in the evening. Thanks to the motion sensor, the light turns on automatically so you can easily drive up the driveway or find the keyhole of your door.

Luxform's security range runs on solar energy, making it a sustainable solution. Even in winter, our security lights have enough energy to provide bright light because the light is only on for a short - mostly adjustable - period at a time.

PALMA

NEW

Dimensions: 184 x 90 x 177 mm
Brightness: 180 Lumen
LED: 8 x softtone SMD, warm white
Material: ABS
Colour: black
Incl. battery: 1 x 1800 mAh Li-Ion

SALTA

Dimensions: 168 x 120 x 183 mm
Brightness: 1000 Lumen
LED: 8 x softtone SMD
Material: PP
Colour: black
Incl. battery: 1 x 18650 Li-Ion 3,7V

LA RIOJA

Dimensions: 217 x 146 x 170 mm
Brightness: 2500 Lumen
LED: 120 x softtone SMD
Material: PP
Colour: black
Incl. battery: 2 x 18650 Li-Ion 3,7V

ROSARIO

Dimensions: 95 x 140 x 290 mm
Brightness: 30-600 Lumen
LED: 24 x softtone SMD, warm white
Material: PP
Colour: black
Incl. battery: 1 x 18650 Li-Ion 3,7V

MONTEVIDEO

Dimensions: 250 x 190 x 260 mm
Brightness: 500 Lumen
LED: 20 x softtone SMD
Material: PP
Colour: black
Incl. battery: 1 x 18650 Li-Ion 3,7V

Party lights

Whether it's time for a party or you just want to create a pleasant atmosphere in your garden, the Luxform party lights come in all kinds of different styles and colours with 2 types of connections: 24V and solar/solar hybrid. You can choose between industrial, colourful or party lights for any occasion. All sets are delivered ready-to-use.

MENORCA

Dimensions: 3800 x 50 x 78 mm
LED: 10 x softtone
Material: PP
Length: 4 metre
Colour: black
Incl. battery: 1 x AA Ni-Mh 1,2V

ALICANTE

Dimensions: 3490 x 45 x 93 mm
LED: 10 x softtone with tube diffuser
Material: PP
Length: 3,5 metre
Colour: black
Incl. battery: 1 x AA Ni-Mh 1,2V

MONTE GORDO

Dimensions: 4650 x 22x 82 mm
LED: 14 x softtone, warm white
Material: ME
Length: 4,7 metre
Colour: black
Incl. battery: 1 x AA Ni-Mh 1,2V

SOUSSE

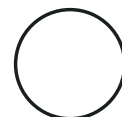

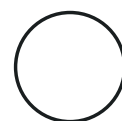

Dimensions: 3800 x 55 x 55 mm
LED: 10 x softtone, warm white
Material: GL
Length: 4 metre
Colour: black
Incl. battery: 1 x AA Ni-Mh 1,2V

CORFU

Dimensions: 5100 x 50 x 78 mm
LED: 15 x softtone, warm white
Material: GL
Length: 5,1 metre
Colour: black
Incl. battery: 1 x AA Ni-Mh 1,2V

A warm, inviting outdoor patio scene at night. The background is a wall of vertical wooden planks. Two strings of round, glowing string lights are strung across the scene. A large green plant with long leaves is on the left. In the foreground, there's a wicker chair with a yellow blanket draped over it, a wicker table with a bowl of fruit and glasses, and a patterned cushion on a wicker ottoman.

Our 24V (LED) party lights are also extremely durable and can be on all night. Our party lights contain no toxins (as with incandescent and halogen bulbs) and use up to 90% less energy than an incandescent bulb, or 85% less than a halogen bulb.

The party lights are available in various shapes and colours. They are also connectable and expandable up to 30 metres in length. Right out of the box they can be hung in the garden or on the balcony, because they do not need sunlight to charge.

*Tahiti and Maui are connectable**

TAHITI

Dimensions: Ø180x458/600
 Brightness: 11 Lumen
 LED: 1x Filament, warm white
 Material: PP
 Length: 10 metre
 Colour: black

MAUI

Dimensions: Ø180x458/600
 Brightness: 10 Lumen
 LED: 1x Filament, warm white
 Material: PP
 Length: 10 metre
 Colour: black

HONOLULU

Dimensions: Ø180x458/600
 Brightness: 10 Lumen
 LED: 10x 6 SMD (in milky bulb)
 Material: PP
 Length: 4,5 metre
 Colour: black

HONOLULU

Dimensions: Ø180x458/600
 Brightness: 10 Lumen
 LED: 20x 6 SMD (in milky bulb)
 Material: PP
 Length: 9,5 metre
 Colour: black

Patio

With a different interpretation of the home-work balance, the increased possibility of working from home and also the warmer summers on average, our lives have increasingly moved from indoors to outdoors. This trend is also reflected in the outdoor lighting market. Large incandescent fixtures and retro light sources are an atmospheric addition to the canopy or balcony. More and more we see industrial solar lights on the patio too.

Luxform therefore offers an attractive collection of patio lights suitable for the terrace, patio and under the canopy. Lighting that will not look out of place indoors, but can simply stay outside, even when it rains.

IBIZA SMALL

Dimensions: 215 x 260 mm
Brightness: 15 Lumen
LED: 1 x filament, warm white
Material: ME & PP
Colour: brown
Incl. battery: 1 x AA Ni-Mh 1,2V

IBIZA LARGE

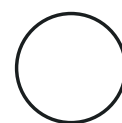

Dimensions: 260 x 335 mm
Brightness: 15 Lumen
LED: 1 x filament, warm white
Material: ME & PP
Colour: brown
Incl. battery: 1 x AA Ni-Mh 1,2V

Braided structures, beautiful (sustainable) materials like rope, sometimes combined with recyclable plastic. Add some Mediterranean vibes to your garden and enjoy that warm summer evening, tomorrow is still far away.

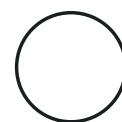

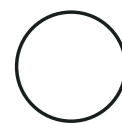

SARDEGNA

Dimensions: 175 x 210 mm
 Brightness: 15 Lumen
 LED: 1 x filament, warm white
 Material: ME & PP & RP
 Colour: brown
 Incl. battery: 1 x AA Ni-Mh 1,2V

TORTOLI

Dimensions: 250 x 255 mm
 Brightness: 15 Lumen
 LED: 1 x filament, warm white
 Material: ME & PP & RP
 Colour: brown
 Incl. battery: 1 x AA Ni-Mh 1,2V

BUDONI

Dimensions: 200 x 250 mm
 Brightness: 15 Lumen
 LED: 1 x filament, warm white
 Material: ME & PP & RP
 Colour: brown
 Incl. battery: 1 x AA Ni-Mh 1,2V

Industrial

Recalling the style of the industrial revolution. Dark colours, metal wire shaped like small cages, Luxform takes you back in time, with our line of industrial patio lights.

DUISBERG

Dimensions: 130 x 160 mm
Brightness: x Lumen
LED: 2 x filament, warm white

Decorative

Decorative solar lighting: it doesn't get any easier! Solar lighting from Luxform is the fastest, safest and easiest way to add atmosphere to your garden at night. Designed to be simple and eco-friendly, these lights do not use electricity, but work directly on energy sourced from the sun.

Each light contains an ingeniously designed solar panel that converts sunlight into electrical energy. This energy is stored in efficient high-quality rechargeable batteries, which provide the energy needed at night. Luxform's decorative series combines optimal ease of operation with a fun, special or slightly different look for your garden or balcony.

Material: STS & PP
Colour: grey
Incl. battery: 1 x AA Ni-Mh 1,2V

The Crackle lights from Luxform emit a special light due to their 'cracked' look of the glass ball. The garden is well and safely lit, but with just a little more atmosphere than ordinary functional lighting. The crackle ball lights come in several variations to use as a stake light, floor light or wall light.

Torches

For a truly special addition to your garden, by the patio or in a border, simply place a Luxform torch. These torches - equipped with solar rechargeable lights with warm flicker effect - come in a variety of styles.

JERSEY

Batteries

Luxform's battery lighting is the fastest, safest and easiest way to upgrade your garden. Each battery powered light works independently of other lights and does not require a cable, sunlight or transformer. Battery lights can be used both indoors and outdoors. Due to battery power, the lights are also suitable for balconies and shady-dark places without power connections.

Luxform batteries are best suited for use in all of our solar lights. You can choose between rechargeable Lithium-ion batteries or Alkaline batteries. Lithium-Ion (Li-Ion) batteries are rechargeable batteries and come in different voltages and sizes AA or AAA.

The alkaline batteries are non-rechargeable and are available as AA and AAA.

METAL INSECT

Art. No.: 19001.000.00
Quantity: 8 pcs
Dimensions: 130x235x215 mm
LED: 2x LED, warm white
Material: ME & PP
Incl. battery: 1x 1/3 AAA Ni-Mh 1,2V

METAL LADY BUG

Art. No.: 19003.000.00
Quantity: 6 pcs
Dimensions: 190x160x345 mm
LED: 2x LED, warm white
Material: ME & PP
Incl. battery: 1x 1/3 AAA Ni-Mh 1,2V

LONGFORD

Art. No.: 20163.000.00
Quantity: 1 pcs
Dimensions: 162x162x890 mm
Brightness: 15
LED: 2x Filament
Material: ME & PP
Incl. battery: 1x 14500 Li-Ion 3,2V

KILLARNEY

Art. No.: 20164.000.00
Quantity: 1 pcs
Dimensions: 220x220x880 mm
Brightness: 15 Lumen
LED: 2x Filament
Material: ME & PP
Incl. battery: 1x 14500 Li-Ion 3,2V

NOTTINGHAM

Art. No.: LUX9530D
Quantity: 20 pcs
Dimensions: 100xØ65x320
Brightness: 360 Lumen
LED: GU10 18x SMD LED
Watt: 4
Plug: DE
Material: ME

MYRA STICKLIGHT

Art. No.: 21140.000.00
Quantity: 4 pcs
Dimensions: Ø155x850 mm
Brightness: 6 Lumen
LED: 1x softtone, warm white
Material: ME & PP
Incl. battery: 1x AA Ni-Mh 1,2V

TYANA STICKLIGHT
