We would like to introduce ourselves

We are Rob and Bart, two brothers and founders of Packara BV. With over 15 years of experience in the packaging industry, we combine passion, craftsmanship, and dedication in everything we do. To us, every customer represents a personal relationship, and this approach is reflected in our swift and meticulous handling of every inquiry and order.

Our family business is built on trust and honest service—values instilled in us from an early age, as our parents preceded us in this field. We developed this webshop to serve you even better, providing you with quick and easy access to our products and services, always with the same personal touch you have come to expect from us.

We look forward to receiving your inquiries or orders with great enthusiasm.

Sustainability

Sustainability has become increasingly important in recent years and this trend will not diminish for the time being. Consumers are increasingly aware that their choices have consequences for the planet. Packara is happy to contribute to this!

We do this by taking a good look at the compositions, reusability & recycling of materials.

How do you recognize a sustainable Packara product?

To make it easier to see which articles within the collections meet the above requirements, they are provided with a logo. We use one for this 'GREEN CHOICE' or '100% COTTON' logo.

Which products receive a 'GREEN CHOICE' designation?

Articles with the following properties are indicated with a 'GREEN CHOICE' logo:

- ✓ The products consists of unprocessed/environmentally friendly materials, such as: Paper, jute, wood, hemp cork, etc.
- ✓ The product comes from nature (such as: Straw, etc.) and is made by Packara into a new decorative item.

Which products receive a '100% COTTON' designation?

- ✓ All articles that have a composition of 100% cotton can be recognized by a '100% COTTON' logo. These can be ribbons, but also cords and other decorations.

"Together for a green world!"
